

Career Event in the Globe  
(yesterday during the CB chat)

# Individual engagement in a united Collaboration

Learn from the past, but think towards the future – prepare the Collaboration for tomorrow, as well as for a sustainable and bright future

Define & verify the Management Structures – researchers will be multi-tasking within an macro-management structure; set priorities in our research program

Person power & Engagement – promote the spirit of individual engagement (using eg. positive incentives, awards, training, etc.); promote and value experimental work as part of our career profile

Strengthen the Collaboration – pro-actively seek new institutions & opportunities; value the international dimension of our Collaboration

Efficiency of Meetings & Committees – focussed agenda, open discussions, with decisions made at the CB meeting after the discussion; evaluate the numerous committees and combine where relevant

Focus on core business – in a transparent environment; CB chair as link between management and institutes
